

Workshop on ABE production and CO₂/H₂ fermentation

Day 1: ABE fermentation

Acetone, butanol, ethanol and other products.

Day 2: CO₂/H₂ fermentation

Acetate, ethanol, methane or other products from H₂/CO₂ or syngas.

Topics include:

- microbiology, feedstock and media
 - strains and mutants
 - growth conditions
 - challenging feedstocks
- process engineering
 - mixing
 - gassing
 - reactor design
 - product purification

10th and 11th of November 2016, 09:00-18:00
Room EH05, BOKU University, Peter Jordan Strasse 82,
Vienna 1190, Austria.

No attendance fee

Registration by 30th September 2016
Abstract by 14th October 2016
